

Uridan Pylon

By designer Troels Bøgely

The Pylon is Uridan's most 'funky' design created specifically for clubs, pubs, restaurants and hotels.

Danish Design:

The simple sophisticated design is available in 3 heights (the Pylon Maxi, Midi and Mini).

The Pylon is extremely versatile as this urinal can be installed over existing toilet wastes providing installation cost benefits for property owners.

Up Front Savings: A typical flushing urinal is 300% more expensive than the Uridan urinal because Uridan waterless urinals do not require water, flush mechanisms, sensors and solenoid valves, only a waste pipe.

Simple Installation: Simply hang the urinal on the mounting brackets (supplied) and connect to the sewer pipe, prime the trap with 3 litres of water and add uriLOCK. The urinal is now ready for use.

Quick and Easy Servicing: No plastic inserts, deodorising blocks, mats or 3rd party devices are required. Simply pour in the uriLOCK blocking fluid and the urinal is ready for use. It's that simple.

Water savings: Uridan waterless urinals save an estimated 50-60,000 litres of water per urinal per year. As an example, a building with 20 single bowl Uridan urinals will save 1.2mL – equivalent to *\$3,600 - \$6,000 per annum! (*Sydney Water pricing)

Sustainable Buildings: Reach water conservation targets with ease with uridan waterless urinals

Product Specifications:

Models:

- GVT Glass reinforced plastic, Tower – height 940mm
- GVTMDT Glass reinforced plastic, Tower Midi – height 800mm

Installation:

- Floor waste fitting

Colours:

- Pylon: Available in all colours

White

Stone Grey

Granite

Stone Nero

Jet Black

Frequently specified for use in:

- Boutique offices
- Restaurants
- Hotels
- Breweries
- Pubs
- Clubs
