

## **Uridan Crew**

By designer uridan a/s

The Uridan Crew trough urinal is ideally suited for venues catering for a large number of males.

### **Danish Design:**

The simple shape and smooth, rimless surface make the urinal easy to maintain, delivering a high level of hygiene in amenities.

The robust and resilient fibreglass material provides protection against vandalism and the extra large waste trap makes this trough urinal particularly easy to maintain.

### **Water & Cost Savings:**

The cost efficiency of the uridan range begins with the simple installation. The trough does not require complex pipework, cisterns, sensors, timers or flush mechanisms. Simply connect to a standard 50mm waste pipe.

As the urinal requires no water for flushing, the water and energy savings are clear.

### **Simple maintenance:**

No plastic inserts, deodorising blocks, mats or 3<sup>rd</sup> party devices are required. Simply pour in the uriLOCK blocking fluid and the urinal is ready for use.

**Water savings:** Uridan waterless urinals save an estimated 50-60,000 litres of water per urinal per year. As an example, a building with 20 single bowl Uridan urinals will save 1.2mL – equivalent to \*\$3,600 - \$6,000 per annum! (\*Sydney Water pricing)

**Sustainable Buildings:** Reach water conservation targets with ease with uridan waterless urinals

## Product Specifications:

### Models:

- GR1200           Width 1200mm
- GR1400           Width 1400mm
- GR1800           Width 1800mm
- GR2400           Width 2400mm

### Materials:

- GRP (glass reinforced plastic)

### Installation:

- Wall or Floor waste fitting

### Colours:

- Available in RAL Colours - Tele Grey and Iron Grey

## Specified for:

Widely used in football stadiums, sporting venues, entertainment centres, schools, mining sites, demountable buildings, portable amenities, ablution blocks, change rooms, clubs, warehouses and factories.
